Product purpose and description

The products are intended to provide pleasure craft insurance cover for an Australian individual or domiciled business that owns or operates an insured Personal Watercraft solely for private, personal, domestic or household use. A Personal Watercraft (PWC) is a craft propelled by an inboard motor powering a water jet pump where the operator sits, stands or kneels on the craft and uses handle bars to steer the craft.

The Products are designed for customers seeking a range of insurance covers to mitigate financial loss in relation to:

- Both:
 - accidental damage (including that caused by impact with a solid object, sinking, fire, storm), theft, malicious damage, transit damage and water inflow of or to covered items. Covered items include the hull, motors (including fuel tanks), trailer and equipment and accessories; and
 - third-party liability for costs that customers are legally responsible for in relation to property damage or loss their PWC/covered items have caused to other persons or property in specified circumstances,(for customers selecting “**Comprehensive**” cover); or
- Third-party liability for costs that customers are legally responsible for in relation to certain property damage or loss their PWC/covered items have caused to other persons or property in specified circumstances, such as as a result of an accident caused by the owner or operator’s negligence that causes accidental death, bodily injury or damage;
(for customers selecting “**Legal Liability**” cover).

The Products are designed for customers to choose the appropriate options and selection of covers.

They contain different cover benefits depending on the selected covers and have a range of specified covers as well as optional covers that may be available to customers at additional cost.
